

WARGITSCH TRANSFORMATION ENGINEERS DONATING FOR TIMP

- ▶ Together with our partner PowerInU Philippines, Wargitsch Transformation Engineers donate for **Talatuki at Ipus ning Mayap a Pastul (TIMP)**, a community of lowlanders and Aeta residents who were impacted greatly by the Pinatubo volcanic eruption back in 1991. Sadly, the recent April 2019 earthquake has once again greatly affected their area.
- ▶ A Catholic renewal group visits the TIMP sites every Thursday and Saturday. The volunteers, who began this mission and apostolate and accompaniment in 1992, continue to provide Leadership training in Catechism, and English proficiency training for the children of the community; in order to help emancipate them from poverty through skills training, better employment opportunities, and values and virtues formation through Catechism classes.

IMPRESSIONS OF LAST YEAR'S ACTIVITIES OF TIMP
